Check the conditions with Recam Làser.

\* If our SAT cannot restore the operation of the machine in 7 days, will facilitate the cut-off of the production at no cost.  
We have other powers and other table formats and off-line programming.

**Specifications:**

Model	RL 3015T - 1500W
Laser Power	1500 W
Cutting Area (mm)	3000 x 1500
Max. simultaneous positioning speed	120 m/min
Maximum acceleration	1.5 G
Machine tolerance	±0.03 mm
Repeatability	±0.02 mm
Type of motor	Servo Motor
Transmission system	Double rack gear and pinion
Electrical requeriments	380 - 400 V / 50 Hz. 60 Amp
Energy consumption	20 KW
Maximum load	800 Kg
Weight	9500 Kg
Outline sice (mm)	8800 x 3500 x 1900
